## Langer Heinrich Mine Update

---

Paladin Energy Ltd (**Paladin** or the **Company**) provides the following update regarding the Langer Heinrich Mine (**LHM**).

The Company is pleased to report that the LHM plant has been restarted following the planned November shutdown. During the shutdown, routine plant maintenance activities and a number of improvement works were completed.

The shutdown also allowed the operation to build its on-site water storage which is expected to provide a buffer to better manage ongoing water balance at the LHM.

Paladin will provide an update on the performance of the LHM plant following the shutdown in its December 2024 Quarterly Activities Report, expected to be released on 22 January 2025.
